## Experience

### CUDI - Centro Universitario de La Matanza 2021–2023

Taught courses on web development (HTML, CSS, JS) and Linux from scratch. Designed educational materials, exams, and guided students through their final projects.

### Argentina Programa 2023

Instructor for a 3-month introduction to Java course, covering programming fundamentals and object-oriented concepts. Responsible for materials and assessments.

### IAC - Instituto Argentino de Computación 2022–2024

Instructor for two web development courses: one introductory (HTML, CSS, JS) and one advanced (React, Node.js, MySQL). Fully developed the syllabus, materials, and exams.

## Skills

-  HTML
-  CSS
-  JavaScript
-  React
-  Node.js
-  MySQL
-  Git
-  GNU/Linux
-  Bash
-  C
-  C++
-  Godot
-  Meta Worlds Creator

## Education

Currently enrolled in Computer Engineering – Universidad Tecnológica Nacional (UTN)

## Interests

I'm passionate about designing and developing games that blend creativity and systems design. I also enjoy teaching and sharing knowledge to help others grow in tech and game development.
